

- **RESPONSIBLE RECYCLING** – all demolishing materials were sorted for responsible recycling and donation.
- **REPLACE ALL WINDOWS AND DOORS** – all windows were replaced to increase the energy efficiency.
- **PROPER INSULATION** – doors, windows and specific walls were insulated properly to increase energy efficiency.
- **LANDFILL CONSIDERATION** – we renovated a tired home with good bones in lieu of filling a landfill.
- **MATERIAL RENEWAL** – we worked with the existing materials where possible; refinished all existing hardwood floors.
